MANAGEMENT'S RESPONSIBILITY FOR FINANCIAL REPORTING

The consolidated financial statements of StellerVista Credit Union have been prepared in accordance with International Financial Reporting Standards (IFRS) When alternative accounting methods exist, management has chosen those it deems most appropriate in the circumstances. These statements include certain amounts based on management's estimates and judgments. Management has determined such amounts based on a reasonable basis in order to ensure that the financial statements are presented fairly in all material respects.

The integrity and reliability of StellerVista Credit Union's reporting systems are achieved through the use of formal policies and procedures, the careful selection of employees and an appropriate division of responsibilities. These systems are designed to provide reasonable assurance that the financial information is reliable and accurate.

The Board of Directors is responsible for ensuring that management fulfills its responsibility for financial reporting and is ultimately responsible for reviewing and approving the financial statements. The Board carries out this responsibility principally through its Audit Committee. The Audit Committee is appointed by the Board and meets periodically with management and the shareholders' auditors to review significant accounting, reporting and internal control matters. Following its review of the financial statements and discussions with the auditors, the Audit Committee reports to the Board of Directors prior to its approval of the financial statements. The Committee also considers, for review by the Board and approval by the shareholders, the engagement or re-appointment of the external auditors.

The consolidated financial statements have been audited on behalf of the shareholders by Adams Wooley, Chartered Professional Accountants, in accordance with Canadian generally accepted auditing standards.

Ms. Lynnette Wray, Chair	Mr. Jody Burk, CEO

Cranbrook, BC February 22, 2024

INDEPENDENT AUDITOR'S REPORT

To the Shareholders of StellerVista Credit Union

Opinion

We have audited the consolidated financial statements of StellerVista Credit Union (the Credit Union), which comprise the consolidated statement of financial position as at December 31, 2023, and the consolidated statements of income, retained earnings, comprehensive income and cash flows for the year then ended, and notes to the consolidated financial statements, including a summary of significant accounting policies.

In our opinion, the accompanying consolidated financial statements present fairly, in all material respects, the consolidated financial position of the Credit Union as at December 31, 2023, and the consolidated financial performance and consolidated cash flows for the year then ended in accordance with International Financial Reporting Standards (IFRS)

Basis for Opinion

We conducted our audit in accordance with Canadian generally accepted auditing standards. Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Consolidated Financial Statements* section of our report. We are independent of the Credit Union in accordance with ethical requirements that are relevant to our audit of the consolidated financial statements in Canada, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Responsibilities of Management and Those Charged with Governance for the Consolidated Financial Statements

Management is responsible for the preparation and fair presentation of the consolidated financial statements in accordance with IFRS, and for such internal control as management determines is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error

In preparing the consolidated financial statements, management is responsible for assessing the Credit Union's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Credit Union or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Credit Union's financial reporting process.

Auditor's Responsibilities for the Audit of the Consolidated Financial Statements

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with Canadian generally accepted auditing standards will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

Independent Auditor's Report to the Shareholders of StellerVista Credit Union (continued)

As part of an audit in accordance with Canadian generally accepted auditing standards, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Credit Union's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Credit Union's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Credit Union to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

Notes to Consolidated Financial Statements Year Ended December 31, 2023

DESCRIPTION OF BUSINESS

StellerVista Credit Union (the "Credit Union") is incorporated under the Credit Union Incorporation Act (the "Act) of British Columbia and is a member of Central 1 Limited (Central 1). The Credit Union operates as one operating segment in the loans and deposit taking industry in British Columbia. Products and services offered to its members include mortgages, personal and commercial loans, chequing and savings accounts, term deposits, RRSPs, RRIFs, TFSAs, automated banking machines ("ABMs"), debit and credit cards and Internet banking. The Credit Union head office is located at 920 Baker Street, Cranbrook, British Columbia.

These financial statements have been authorized for issue by the Board of Directors on February 22, 2024.

2. BASIS OF PRESENTATION

The consolidated financial statements were prepared in accordance with International Financial Reporting Standards (IFRS) as issued by the International Accounting Standards Board (the IASB).

The Credit Union's functional and presentation currency is the Canadian dollar. The financial statements are presented in Canadian dollars.

The preparation of financial statements in compliance with IFRS requires management to make certain critical accounting estimates. It also requires management to exercise judgment in applying the Credit Union's accounting policies. The areas involving a higher degree of judgment or complexity, or areas where assumptions and estimates are significant to the financial statements are disclosed in *Note 4*.

These consolidated financial statements include the accounts of the Credit Union and its subsidiaries as follows: All significant intercompany transactions and balances have been eliminated upon consolidations.

3. BASIS OF MEASUREMENT

The financial statements have been prepared on a historical cost basis, except for the following material items.

Items Financial Instruments at Fair Value Through Profit and Loss (FVTPL)	Measurement Basis Fair Value
Financial assets at Fair Value Through Other Comprehensive Income (FVOCI)	Fair Value
Available-for-sale financial assets	Fair Value
Recognized financial assets and financial liabilities designated as hedged items in qualifying fair value hedging relationships (which otherwise would have been measured at amortized cost)	Amortized cost adjusted for hedging gain or loss

Notes to Consolidated Financial Statements

Year Ended December 31, 2023

4. USE OF JUDGMENTS AND ESTIMATES

The Credit Union makes estimates and assumptions about the future that affect the reported amounts of assets and liabilities. Estimates and judgments are continually evaluated based on historical experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances. In the future, actual experiences may differ from these estimates and assumptions.

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to estimates are recognized prospectively.

Judgments

Information about judgments made in applying accounting policies that have the most significant effects on the amounts recognized in the financial statements is included in the following notes.

Note 5 - classification of financial assets: assessment of the business model within which the assets are held and assessment of whether the contractual terms of the financial asset are solely payments of principal and interest on the principal amount outstanding.

Note 5 - securitizations: determination of both the degree of transfer of risks and rewards / control on assets transferred to another entity.

Assumptions and estimation uncertainties

Information about assumptions and estimation uncertainties that have a significant risk of resulting in a material adjustment in the year ended December 31, 2023 is included in the following notes.

Impairment of financial instruments

The Credit Union assesses of whether credit risk on the financial asset has increased significantly since initial recognition and incorporation of forward-looking information in the measurement of estimated credit losses.

Fair value of financial instruments

The Credit Union determines the fair value of financial instruments that are not quoted in an active market, using valuation techniques. Those techniques are significantly affected by the assumptions used, including discount rates and estimates of future cash flows. In that regard, the derived fair value estimates cannot always be substantiated by comparison with independent markets and, in many cases, may not be capable of being realized immediately.

The methods and assumptions applied, and the valuation techniques used, for financial instruments that are not quoted in an active market are disclosed in *Note 8*.

Income taxes

The Credit Union periodically assesses its liabilities and contingencies related to income taxes for all years open to audit based on the latest information available. For matters where it is probable that an adjustment will be made, the Credit Union records its best estimate for the tax liability including the related interest and penalties in the current tax provision. Management believes it has adequately provided for the probable outcome of these matters; however, the final outcome may result in a materially different outcome than the amount included in the tax liabilities.

Impairment of financial instruments

The Credit Union uses key assumptions in estimating recoverable cash flows.

5. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Cash and cash equivalents

Cash and cash equivalents include cash on hand, deposits with banks, other short-term highly liquid investments with original maturities of three months or less; and for the purpose of the statement of cash flows, bank overdrafts that are repayable on demand.

Cash and cash equivalents are carried at amortized cost, which is equivalent to fair value.

Notes to Consolidated Financial Statements Year Ended December 31, 2023

5. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Investments - Central 1 deposits

These deposit instruments are initially measured at fair value plus transaction costs that are directly attributable to their acquisition. Subsequently they are carried at amortized cost, adjusted to recognize other than a temporary impairment in the underlying value. If investments are available for sale, they are reported at fair value.

Mandatory Liquidity Pool (MLP)

The MLP investments are held to collect cashflows and to sell if an opportunity to benefit arises. They are initially measured at fair value, plus transaction costs. Subsequently they are carried at fair value through other comprehensive income, adjusted for the portion of premium paid or discount received on purchase. Expected credit loss is calculated on an ongoing basis.

Financial assets and financial liabilities

i) Recognition and initial measurement

The Credit Union initially recognizes member loans, deposits and mortgage securitization liabilities on the date on which they are originated. All other financial instruments (including regular-way purchases and sales of financial assets) are recognized on the trade date, which is the date on which the Credit Union becomes a party to the contractual provisions of the instrument.

A financial asset or financial liability is measured initially at fair value plus, for an item not at FVTPL, transaction costs that are directly attributable to its acquisition or issue.

ii) Classification

On initial recognition, a financial asset is classified as measured at: amortized cost, FVOCI or FVTPL.

A financial asset is measured at amortized cost if it meets both of the following conditions and is not designated as at FVTPL:

- the asset is held within a business model whose objective is to hold assets to collect contractual cash flows; and
- the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

A debt instrument is measured at FVOCI only if it meets both of the following conditions and is not designated as at FVTPL:

- the asset is held within a business model whose objective is achieved by both collecting contractual cash flows and selling financial assets; and
- the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

On initial recognition of an equity investment that is not held for trading, the Credit Union may irrevocably elect to present subsequent changes in fair value in OCI. This election is made on an investment-by-investment basis.

All other financial assets are classified as measured at FVTPL.

In addition, on initial recognition, the Credit Union may irrevocably designate a financial asset that otherwise meets the requirements to be measured at amortized cost or at FVOCI as at FVTPL if doing so eliminates or significantly reduces an accounting mismatch that would otherwise arise.

Notes to Consolidated Financial Statements Year Ended December 31, 2023

5. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Business model assessment

The Credit Union makes an assessment of the objective of a business model in which an asset is held at a portfolio level because this best reflects the way the business is managed and information is provided to management. The information considered includes:

- the stated policies and objectives for the portfolio and the operation of those policies in practice. In particular, whether management's strategy focuses on earning contractual interest revenue, maintaining a particular interest rate profile, matching the duration of the financial assets to the duration of the liabilities that are funding those assets or realising cash flows through the sale of the assets;
- the frequency, volume and timing of sales in prior periods, the reasons for such sales and its expectations about future sales activity. However, information about sales activity is not considered in isolation, but as part of an overall assessment of how the Credit Union's stated objective for managing the financial assets is achieved and how cash flows are realised.

Financial assets that are held for trading or managed and whose performance is evaluated on a fair value basis are measured at FVTPL because they are neither held to collect contractual cash flows nor held both to collect contractual cash flows and to sell financial assets.

Assessment whether contractual cash flows are solely payments of principal and interest

For the purposes of this assessment, 'principal' is defined as the fair value of the financial asset on initial recognition. 'Interest' is defined as consideration for the time value of money and for the credit risk associated with the principal amount outstanding during a particular period of time and for other basic lending risks and costs (e.g. liquidity risk and administrative costs), as well as profit margin.

In assessing whether the contractual cash flows are solely payments of principal and interest, the Credit Union considers the contractual terms of the instrument. This includes assessing whether the financial asset contains a contractual term that could change the timing or amount of contractual cash flows such that it would not meet this condition. In making the assessment, the Credit Union considers:

- contingent events that would change the amount and timing of cash flows;
- leverage features;
- prepayment and extension terms;
- terms that limit the Credit Union's claim to cash flows from specified assets (e.g. nonrecourse asset arrangements); and
- features that modify consideration of the time value of money e.g. periodical reset of interest rates.

<u>Reclassifications</u>

Financial assets are not reclassified subsequent to their initial recognition, except in the period after the Credit Union changes its business model for managing financial assets. There were no changes to any of the Credit Union business models during the current year.

iii) Derecognition

Financial Assets

The Credit Union derecognizes a financial asset when the contractual rights to the cash flows from the financial asset expire, or it transfers the rights to receive the contractual cash flows in a transaction in which substantially all of the risks and rewards of ownership of the financial asset are transferred or in which the Credit Union neither transfers nor retains substantially all of the risks and rewards of ownership and it does not retain control of the financial asset.

On derecognition of a financial asset, the difference between the carrying amount of the asset (or the carrying amount allocated to the portion of the asset derecognized) and the sum of (i) the consideration received (including any new asset obtained less any new liability assumed) and (ii) any cumulative gain or loss that had been recognized in OCI is recognized in profit or loss.

Notes to Consolidated Financial Statements Year Ended December 31, 2023

5. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

From January 1, 2018 any cumulative gain/loss recognized in OCI in respect of equity investment securities designated as at FVOCI is not recognized in profit or loss on derecognition of such securities. Any interest in transferred financial assets that qualify for derecognition that is created or retained by the Credit Union is recognized as a separate asset or liability.

In transactions in which the Credit Union neither retains nor transfers substantially all of the risks and rewards of ownership of a financial asset and it retains control over the asset, the Credit Union continues to recognize the asset to the extent of its continuing involvement, determined by the extent to which it is exposed to changes in the value of the transferred asset.

The Credit Union periodically enters into asset transfer agreements with third parties including securitization of residential mortgages into special purpose entities, such as programs sponsored by Canada Mortgage Housing Corporation that issue bonds to third party investors. This includes securitization of insured residential mortgages by participating in the National Housing Act (NHA) mortgage-backed securities (MBS) program. Through the program, the Credit Union issues securities backed by residential mortgages that are insured against borrower's default. All securitization transactions are reviewed and assessed based on the above-noted derecognition criteria. In instances where the Credit Union's securitizations do not qualify for derecognition based on the above criteria, the Credit Union does not derecognize the transferred financial assets but records a secured borrowing with respect to any consideration received. For more details, see *Note* 25.

Financial liabilities

The Credit Union derecognizes a financial liability when its contractual obligations are discharged or cancelled, or expire.

iv) Modifications of financial assets and financial liabilities

Financial assets

If the terms of a financial asset are modified, the Credit Union evaluates whether the cash flows of the modified asset are substantially different. If the cash flows are substantially different, then the contractual rights to cash flows from the original financial asset are deemed to have expired. In this case, the original financial asset is derecognized and a new financial asset is recognized at fair value.

If the cash flows of the modified asset carried at amortized cost are not substantially different, then the modification does not result in derecognition of the financial asset. In this case, the Credit Union recalculates the gross carrying amount of the financial asset and recognizes the amount arising from adjusting the gross carrying amount as a modification gain or loss in profit or loss. If such a modification is carried out because of financial difficulties of the borrower, then the gain or loss is presented together with impairment losses. In other cases, it is presented as interest income.

Financial liabilities

The Credit Union derecognizes a financial liability when its terms are modified and the cash flows of the modified liability are substantially different. In this case, a new financial liability based on the modified terms is recognized at fair value. The difference between the carrying amount of the financial liability extinguished and the new financial liability with modified terms is recognized in profit or loss.

v) Offsetting

Financial assets and financial liabilities are offset and the net amount presented in the statement of financial position when, and only when, the Credit Union currently has a legally enforceable right to set off the amounts and it intends either to settle them on a net basis or to realise the asset and settle the liability simultaneously.

Income and expenses are presented on a net basis only when permitted under IFRS, or for gains and losses arising from a Credit Union of similar transactions.

Notes to Consolidated Financial Statements Year Ended December 31, 2023

5. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

vi) Designation of fair value through profit or loss

Financial assets

At initial recognition, the Credit Union has designated certain financial assets as at FVTPL because this designation eliminates or significantly reduces an accounting mismatch, which would otherwise arise.

Financial liabilities

The Credit Union has designated certain financial liabilities as at FVTPL where the designation eliminates or significantly reduces an accounting mismatch that would otherwise arise.

<u>Investments - Central 1 deposits</u>

These deposit instruments are classified under amortized cost and are initially measured at fair value plus transaction costs that are directly attributable to their acquisition. Subsequently they are carried at amortized cost.

Equity Instruments

These instruments are initially recognized at fair value plus transaction costs that are directly attributable to their acquisition. Subsequently they are carried at fair value.

For those equity instruments designated as FVOCI upon origination or initial transition to IFRS 9, changes in fair value, except for those arising from interest calculated using the effective interest rate, are recognized in other comprehensive income.

If an irrevocable election upon origination or upon initial transition to IFRS 9 has not been made for an equity instrument, than the equity instrument is designated as FVTPL. Changes in fair value, except for those arising from interest calculated using the effective interest rate, are recognized in profit and loss.

Purchases and sales of equity instruments are recognized on settlement date with any change in fair value between trade date and settlement date being recognized in either profit or loss or other comprehensive income depending on the classification of the equity instrument.

On sale of equity instruments designated as FVOCI, gains and losses on such equity instruments are never reclassified to profit or loss and no impairment is recognized in profit or loss. Dividends are recognized in profit or loss unless they clearly represent a recovery of part of the cost of the investment, in which case they are recognized in OCI. Cumulative gains and losses recognized in OCI are transferred to retained earnings on disposal of an investment. The amount held in accumulated other comprehensive income associated with that instrument is removed from equity and recognized in net income.

Notes to Consolidated Financial Statements Year Ended December 31, 2023

5. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Derivative financial instruments and hedging

The Credit Union designates certain derivatives held for risk management as well as certain non-derivative financial instruments as hedging instruments in qualifying hedging relationships. On initial designation of the hedge, the Credit Union formally documents the relationship between the hedging instrument(s) and hedged item(s), including the risk management objective and strategy in undertaking the hedge, together with the method that will be used to assess the effectiveness of the hedging relationship. The Credit Union makes an assessment, both at inception of the hedge relationship and on an ongoing basis, of whether the hedging instrument(s) is (are) expected to be highly effective in offsetting the changes in the fair value or cash flows of the respective hedged item(s) during the period for which the hedge is designated, and whether the actual results of each hedge are within a range of 80–125%. The Credit Union makes an assessment for a cash flow hedge of a forecast transaction, of whether the forecast transaction is highly probable to occur and presents an exposure to variations in cash flows that could ultimately affect profit or loss.

These hedging relationships are discussed below.

Fair value hedges

When a derivative is designated as the hedging instrument in a hedge of the change in fair value of a recognized asset or liability or a firm commitment that could affect profit or loss, changes in the fair value of the derivative are recognized immediately in profit or loss together with changes in the fair value of the hedged item that are attributable to the hedged risk (in the same line item in the statement of profit or loss and OCI as the hedged item).

If the hedging derivative expires or is sold, terminated or exercised, or the hedge no longer meets the criteria for fair value hedge accounting, or the hedge designation is revoked, then hedge accounting is discontinued prospectively.

Any adjustment up to the point of discontinuation to a hedged item for which the effective interest method is used is amortized to profit or loss as part of the recalculated effective interest rate of the item over its remaining life.

Cash flow hedges

When a derivative is designated as the hedging instrument in a hedge of the variability in cash flows attributable to a particular risk associated with a recognized asset or liability that could affect profit or loss, the effective portion of changes in the fair value of the derivative is recognized in OCI and presented in the hedging reserve within equity. Any ineffective portion of changes in the fair value of the derivative is recognized immediately in profit or loss. The amount recognized in OCI is reclassified to profit or loss as a reclassification adjustment in the same period as the hedged cash flows affect profit or loss, and in the same line item in the statement of profit or loss and OCI.

If the hedging derivative expires or is sold, terminated or exercised, or the hedge no longer meets the criteria for cash flow hedge accounting, or the hedge designation is revoked, then hedge accounting is discontinued prospectively.

Other non-trading derivatives

If a derivative is not held for trading, and is not designated in a qualifying hedge relationship, then all changes in its fair value are recognized immediately in profit or loss as a component of net income from other financial instruments at FVTPL.

Notes to Consolidated Financial Statements Year Ended December 31, 2023

5. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Embedded derivatives

Derivatives may be embedded in another contractual arrangement (a host contract). The Credit Union accounts for an embedded derivative separately from the host contract when:

- the host contract is not an asset in the scope of IFRS 9;
- the host contract is not itself carried at FVTPL;
- the terms of the embedded derivative would meet the definition of a derivative if they were contained in a separate contract; and
- the economic characteristics and risks of the embedded derivative are not closely related to the economic characteristics and risks of the host contract.

Separated embedded derivatives are measured at fair value, with all changes in fair value recognized in profit or loss unless they form part of a qualifying cash flow hedging relationship. Separated embedded derivatives are presented in the statement of financial position together with the host contract.

Members' loans

Member loans include:

- loans and advances measured at amortized cost; they are initially measured at fair value plus
 incremental direct transaction costs, and subsequently at their amortized cost using the effective interest
 method:
- loans and advances mandatorily measured at FVTPL or designated as at FVTPL; these are measured at fair value with changes recognized immediately in profit or loss.

Notes to Consolidated Financial Statements

Year Ended December 31, 2023

5. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Impairment of financial assets

The Credit Union recognizes loss allowances for estimated credit losses (ECL) on the following financial instruments that are not measured at FVTPL:

- financial assets that are debt instruments (loans and advances);
- financial guarantee contracts issued; and
- loan commitments issued.

No impairment loss is recognized on equity investments.

The Credit Union measures loss allowances at an amount equal to lifetime ECL except for financial instruments on which credit risk has not increased significantly since their initial recognition, which are measured as 12-month ECL.

12-month ECL are the portion of ECL that result from default events on a financial instrument that are possible within the 12 months after the reporting date.

ECL are a probability-weighted estimate of credit losses. They are measured as follows:

- financial assets that are not credit-impaired at the reporting date: as the present value of all cash shortfalls (i.e. the difference between the cash flows due to the Credit Union in accordance with the contract and the cash flows that the Credit Union expects to receive);
- financial assets that are credit-impaired at the reporting date: as the difference between the gross carrying amount and the present value of estimated future cash flows;
- undrawn loan commitments: as the present value of the difference between the contractual cash flows that are due to the Credit Union if the commitment is drawn down and the cash flows that the Credit Union expects to receive; and
- financial guarantee contracts: the expected payments to reimburse the holder less any amounts that the Credit Union expects to recover.

See also Note 12.

Restructured financial assets

If the terms of a financial asset are renegotiated or modified or an existing financial asset is replaced with a new one due to financial difficulties of the borrower, then an assessment is made of whether the financial asset should be derecognized and ECL are measured as follows:

- If the expected restructuring will not result in derecognition of the existing asset, then the expected cash flows arising from the modified financial asset are included in calculating the cash shortfalls from the existing asset.
- If the expected restructuring will result in derecognition of the existing asset, then the expected fair value of the new asset is treated as the final cash flow from the existing financial asset at the time of its derecognition. This amount is included in calculating the cash shortfalls from the existing financial asset that are discounted from the expected date of derecognition to the reporting date using the original effective interest rate of the existing financial asset.

Credit-impaired financial assets

At each reporting date, the Credit Union assesses whether financial assets are credit-impaired. For details regarding how the Credit Union determines credit impairment refer to *Note 12*.

Notes to Consolidated Financial Statements Year Ended December 31, 2023

5. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Bad debts written off

Bad debts are written off from time to time as determined by management and approved by the Board of Directors when it was reasonable to expect that the recovery of the debt is unlikely. Bad debts are written off against the provisions for impairment. The methodology and assumptions used for estimating future cash flows are reviewed regularly by the Credit Union to reduce any differences between loss estimates and actual loss experience.

Loan securitization

For securitization transactions, loans are derecognized only when the contractual rights to receive the cash flows from these assets have ceased to exist and substantially all the risks and rewards of the loans have been transferred. If the criteria for derecognition has not been met, the securitization is reflected as a financing transaction and the related liability is initially recorded at fair value minus incremental direct transaction costs and are subsequently measured at amortized cost unless the secured borrowing has been designated as at FVTPL.

When the Credit Union designates a financial liability as at FVTPL, the amount of change in the fair value of the liability that is attributable to changes in its credit risk is presented in OCI as a liability credit reserve. On initial recognition of the financial liability, the Credit Union assesses whether presenting the amount of change in the fair value of the liability that is attributable to credit risk in OCI would create or enlarge an accounting mismatch in profit or loss.

Property, plant and equipment

Property, plant and equipment is initially recorded at cost and subsequently measured at cost less accumulated amortization and any accumulated impairment (losses), with the exception of land which is not amortized and was written up as detailed in *Note 14*. Amortization is recognized in net income and is provided on a straight-line basis over the estimated useful life of the assets as follows:

Buildings	40 years
Furniture and Equipment	0 - 20 years
Motor Vehicles	5 years
Land improvements	15 years
Parking Lot	15 years

Amortization methods, useful lives and residual values are reviewed annually and adjusted if necessary.

Intangible assets

Intangible assets consist of computer software which are not integral to the computer hardware owned by the Credit Union. Software is initially recorded at cost and subsequently measured at cost less accumulated amortization and any accumulated impairment (losses). Software is amortized on a straight-line basis over its estimated useful life, but no more than 7 years.

Notes to Consolidated Financial Statements Year Ended December 31, 2023

5. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Impairment of non-financial assets

Non-financial assets are subject to impairment tests whenever events or changes in circumstances indicate that their carrying amount may not be recoverable. Where the carrying value of an asset exceeds its recoverable amount, which is the higher of value in use and fair value less costs to sell, the asset is written down accordingly.

Where it is not possible to estimate the recoverable amount of an individual asset, the impairment test is carried out on the asset's cash-generating unit, which is the lowest group of assets in which the asset belongs for which there are separately identifiable cash flows.

Impairment charges are included in net income, except to the extent they reverse gains previously recognized in other comprehensive income.

Income taxes

Income tax expense comprises current and deferred tax. Current and deferred tax is recognized in net income except to the extent that it relates to a business combination, or items recognized directly in equity or in other comprehensive income.

Current income taxes are recognized for the estimated income taxes payable or receivable on taxable income or loss for the current year and any adjustment to income taxes payable in respect of previous years. Current income taxes are measured at the amount expected to be recovered from or paid to the taxation authorities. This amount is determined using tax rates and tax laws that have been enacted or substantively enacted by the year-end date.

Deferred tax assets and liabilities are recognized where the carrying amount of an asset or liability differs from its tax base, except for taxable temporary differences arising on the initial recognition of goodwill and temporary differences arising on the initial recognition of an asset or liability in a transaction which is not a business combination and at the time of the transaction affects neither accounting nor taxable profit or loss.

Recognition of deferred tax assets for unused tax (losses), tax credits and deductible temporary differences is restricted to those instances where it is probable that future taxable profit will be available which allow the deferred tax asset to be utilized. Deferred tax assets are reviewed at each reporting date and are reduced to the extent that it is no longer probable that the related tax benefit will be realized.

The amount of the deferred tax asset or liability is measured at the amount expected to be recovered from or paid to the taxation authorities. This amount is determined using tax rates and tax laws that have been enacted or substantively enacted by the year-end date and are expected to apply when the liabilities / (assets) are settled / (recovered).

Member deposits

Member deposits are initially measured at fair value minus incremental direct transaction costs, and subsequently measured at their amortized cost using the effective interest method, except where the Credit Union designates liabilities at FVTPL.

Pension plan

The Credit Union participates in a defined benefit plan administered by Credit Union Pension & Benefits Trust. The Credit Union accounts for the plan by recognizing contributions as an expense in the year to which they relate, as provided in *Note 30*.

Notes to Consolidated Financial Statements Year Ended December 31, 2023

5. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Accounts payable and other payables

Liabilities for trade creditors and other payables are classified as other financial liabilities and initially measured at fair value net of any transaction costs directly attributable to the issuance of the instrument and subsequently carried at amortized cost using the effective interest rate method.

Provisions

Provisions are recognized for liabilities of uncertain timing or amount that have arisen as a result of past transactions, including legal or constructive obligations. The provision is measured at the best estimate of the expenditure required to settle the obligation at the reporting date.

Members' shares

Members' shares issued by the Credit Union are classified as equity only to the extent that they do not meet the definition of a financial liability or financial asset.

Membership shares that are classified as liabilities are initially measured at fair value minus incremental direct transaction costs, and subsequently measured at their amortized cost using the effective interest method, except where the Credit Union designates liabilities at FVTPL.

Patronage distributions

Patronage distributions are recognized in net income when circumstances indicate the Credit Union has a constructive obligation it has little or no direction to avoid, and it can make a reasonable estimate of the amount required to settle the obligation.

Revenue recognition

Revenue from the provision of services to members is recognized when earned, specifically when amounts are fixed or can be determined and the ability to collect is reasonably assured.

Notes to Consolidated Financial Statements Year Ended December 31, 2023

5. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Leased assets

For any new contracts entered into on or after January 1, 2019, the Credit Union considers whether a contract is, or contains a lease. A lease is defined as 'a contract, or part of a contract, that conveys the right to use an asset (the underlying asset) for a period of time in exchange for consideration'. To apply this definition the Credit Union assesses whether the contract meets three key evaluations which are whether:

- the contract contains an identified asset, which is either explicitly identified in the contract or implicitly specified by being identified at the time the asset is made available to the Credit Union
- the Credit Union has the right to obtain substantially all of the economic benefits from use of the identified asset throughout the period of use, considering its rights within the defined scope of the contract
- the Credit Union has the right to direct the use of the identified asset throughout the period of use. The Credit Union assesses whether it has the right to direct 'how and for what purpose' the asset is used throughout the period of use

Measurement and recognition of leases as a lessee

At lease commencement date, the Credit Union recognises a right-of-use asset and a lease liability on the statement of financial position. The right-of-use asset is measured at cost, which is made up of the initial measurement of the lease liability, any initial direct costs incurred by the Credit Union, an estimate of any costs to dismantle and remove the asset at the end of the lease, and any lease payments made in advance of the lease commencement date (net of any incentives received).

The Credit Union depreciates the right-of-use assets on a straight-line basis from the lease commencement date to the earlier of the end of the useful life of the right-of-use asset or the end of the lease term. The Credit Union also assesses the right-of-use asset for impairment when such indicators exist.

At the commencement date, the Credit Union measures the lease liability at the present value of the lease payments unpaid at that date, discounted using the interest rate implicit in the lease if that rate is readily available or the Credit Union's incremental borrowing rate, which has been deemed to be the prime rate, since the Credit Union does not currently borrow.

Lease payments included in the measurement of the lease liability are made up of fixed payments (including in substance fixed), variable payments based on an index or rate, amounts expected to be payable under a residual value guarantee and payments arising from options reasonably certain to be exercised.

Subsequent to initial measurement, the liability will be reduced for payments made and increased for interest. It is remeasured to reflect any reassessment or modification, or if there are changes in in-substance fixed payments.

When the lease liability is remeasured, the corresponding adjustment is reflected in the right-of-use asset, or profit and loss if the right-of-use asset is already reduced to zero.

The Credit Union has elected to account for short-term leases and leases of low-value assets using the practical expedients. Instead of recognising a right-of-use asset and lease liability, the payments in relation to these are recognised as an expense in profit or loss on a straight-line basis over the lease term.

On the statement of financial position, there is an option to include right-of-use assets in property and equipment and lease liabilities in trade and other payables, but they have been included in separate line items instead.

Notes to Consolidated Financial Statements Year Ended December 31, 2023

5. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

The Credit Union as a lessor

The Credit Union's accounting policy under IFRS 16 has not changed from the comparative period.

As a lessor the Credit Union classifies its leases as either operating or finance leases.

A lease is classified as a finance lease if it transfers substantially all the risks and rewards incidental to ownership of the underlying asset, and classified as an operating lease if it does not.

Foreign currency translation

Foreign currency accounts are translated into Canadian dollars as follows:

At the transaction date, each asset, liability, revenue and expense denominated in a foreign currency is translated into Canadian dollars by the use of the exchange rate in effect at the date. At the year-end date, unsettled monetary assets and liabilities are translated into Canadian dollars by using the exchange rate in effect at the year-end date and the related translation differences are recognized in net income. Exchange gains and (losses) arising on the retranslation of monetary available-for-sale financial assets are treated as a separate component of the change in fair value and recognized in net income. Exchange gains and (losses) on non-monetary available-for-sale financial assets form part of the overall gain or loss recognized in respect of that financial instrument.

Non-monetary assets and liabilities that are measured at historical cost are translated into Canadian dollars by using the exchange rate in effect at the date of the initial transaction and are not subsequently restated. Non-monetary assets and liabilities that are measured at fair value or a revalued amount are translated into Canadian dollars by using the exchange rate in effect at the date the value is determined and the related translation differences are recognized in net income or other comprehensive income consistent with where the gain or loss on the underlying non-monetary asset or liability has been recognized.

Notes to Consolidated Financial Statements Year Ended December 31, 2023

5. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Measurement uncertainty

The preparation of financial statements in compliance with IFRS requires management to make certain critical accounting estimates. It also requires management to exercise judgment in applying the credit union's accounting policies. Actual results could differ from these estimates.

Examples of significant estimates include:

- providing for amortization of property, plant and equipment;
- the estimated useful lives of assets;
- the allowance for losses on loans;
- the recoverability of long-term investments;
- the recoverability of intangible assets;
- the amount and composition of income tax assets and income tax liabilities, including the amount of unrecognized tax benefits;
- certain actuarial and economic assumptions used in determining defined benefit pension costs, accrued pension benefit obligations and pension plan assets, and present value of future lease obligations.
- IFRS 16 requires entities to make certain judgements and estimations, and those that are significant should be disclosed here or within the asset and liability notes within the financial statements. Critical judgements are often required when an entity is, for example:
 - determining whether or not a contract contains a lease
 - establishing whether or not it is reasonably certain that an extension option will be exercised
 - considering whether or not it is reasonably certain that a termination option will not be exercised
 - determining whether or not variable leased payments are truly variable, or in-substance fixed
 - for lessors, determining whether the lease should be classified as an operating or finance lease.
 - Examples of key sources of estimation and uncertainty include:
 - calculating the appropriate discount rate to use
 - · estimating the lease term
 - estimating variable lease payments dependant on an index or rate.

Notes to Consolidated Financial Statements Year Ended December 31, 2023

6. IFRSs NOT YET EFFECTIVE

Following is a listing of amendments, revisions and new International Financial Reporting Standards (IFRSs) issued and the effective date. Unless otherwise indicated, earlier application is permitted. The Credit Union is currently evaluating the impact of adopting the changes, which it intends to do when required.

IFRS 7 - Financial Instruments - Disclosures (annual periods beginning on or after January 1, 2024)

The amendments affect disclosures related to Supplier Finance Arrangements.

IFRS 10 - Consolidated Financial Statements (annual periods beginning on or after January 1, 2025)

The amendments affect the sale or contribution of assets between an investor and its associate or joint venture.

IFRS 16 - Leases (annual periods beginning on or after January 1, 2024)

The amendments affect reporting on lease liabilities in a sale and leaseback arrangement.

IAS 7 - Statement of cash flows (annual periods beginning on or after January 1, 2024)

The amendments introduce new disclosure requirements to enhance the transparency of supplier finance arrangements and their effects on a company's liabilities, cash flows and exposure to liquidity risk.

IAS 28 - Investments in associates and joint ventures (annual periods beginning on or after January 1, 2025)

The amendments affect the sale or contribution of assets between an investor and its associate or joint venture.

Notes to Consolidated Financial Statements

Year Ended December 31, 2023

CASH AND TERM DEPOSITS

The Credit Union's cash and current accounts are held with Central 1. The average yield in the accounts at December 31, 2023 is 5.39% (2022 - 4.44%).

	_	2023	2022

Unamortized premium on MLP investments		(1,230,350)	235,500
Fair value adjustment of MLP investments		(1,459,181)	(816,947)
Total MLP	_	53,966,552	36,649,960
Concentra deposits			
Concentra investments		11,000,000	-
Total Concentra		11,000,000	_
Other cash and deposit accounts		3,905,079	3,706,199
	\$	83,990,412	\$ 64,224,370

The Credit Union must maintain liquidity reserves with Central 1 Credit Union (Central 1) at 8% of deposits plus any borrowings, less any cash on hand, at December 31 each year. The deposits can be withdrawn only if there is a sufficient reduction in the Credit Union's total assets or upon withdrawal of membership from Central 1. At maturity, these deposits are reinvested at market rates for various terms.

Current deposits at Central 1 are due within one year. The carrying amounts for deposits at Central 1 approximate fair value due to having similar characteristics as cash and cash equivalents.

The Liquidity Requirement Regulation ("LRR") under the Financial Institutions Act ("FIA") was amended effective January 1, 2021, to enable the legal segregation of the credit unions' statutory liquidity into a bare trust structure (referred to as the Mandatory Liquidity Pool ("MLP") segregation). The former requirement for a credit union to place its statutory liquidity as a deposit in Central 1 Credit Union ("Central 1") was replaced with the requirement for a credit union to hold its statutory liquidity as unencumbered assets in trust with Central 1. A credit union has adequate liquid assets if it holds unencumbered assets placed in trust with Central 1 that are at least equal to 8% of the credit union's aggregate deposit and other debt liabilities.

The permitted liquid assets placed in trust with Central 1 include the following:

- Assets held in the trust that are High Quality Liquid Assets ("HQLA") as defined by the Office of the Superintendent of Financial Institutions (Canada) ("OSFI") or by BCFSA rules;
- Specified short term bankers' acceptances held in the trust;
- Cash deposits held in the trust; and
- Cash on hand held by the credit union.

Notes to Consolidated Financial Statements Year Ended December 31, 2023

7. CASH AND TERM DEPOSITS (continued)

Total cash deposits and bankers' acceptances held in the trust and cash on hand held by the credit union is limited to 2% of the credit union's aggregate deposit and other debt liabilities. Cash deposits and bankers' acceptances held in trust with Central 1 do not qualify as HQLA, in order to ensure that the credit union holds 6% HQLA for statutory liquidity, not including cash on hand held by the credit union.

The MLP assets are classified and subsequently measured at fair value, because they are predominantly derivative instruments that do not meet the criteria of being solely payments of principal and interest. MLP assets are subsequently reduced by a loss allowance, if any. The credit union holds the investments to collect cashflows, but also sells the bonds before maturity, if there is an opportunity to meet its objectives. At December 31, the MLP portfolio has an average yield to maturity of 2.8441%, including the amortization of the premium paid on acquisition, and an average duration to maturity of 1.4219 years.

The Credit Union holds cash held on deposit with Central 1. Liquidity deposits and MLP assets have been determined to have low credit risk and therefore the loss allowances for liquidity deposits is measured at an amount equal to 12-month ECL. MLP assets have been measured to have an expected credit loss of approximately 0.01% of the nominal value of the bonds in the portfolio.

Notes to Consolidated Financial Statements Year Ended December 31, 2023

8. INVESTMENTS

но	1111177	Inctriimante
Ľu	uitv	Instruments

Equity instruments		2023		2022
	Measurement basis			
Central 1 Credit Union - Class A	FVOCI	\$	201,239	\$ 133,352
Central 1 Credit Union - Class E	FVTPL		103	63
Stabilization Central Credit Union Shares	FVTPL		368	219
BC Co-operative Association	FVTPL		1,612	1,612
East Kootenay Columbia Investment Co-op	FVTPL		500	500
CU CUMIS Wealth Holdings LP	FVTPL		2	2
		\$	203,824	\$ 135,748

The Credit Union is a member of a national financial services entity named Central 1. The shares in Central 1 are required as a condition of membership and are redeemable upon withdrawal of membership or at the direction of the Board of Directors of Central 1. The Credit Union is not intending to dispose of any Central 1 shares as the services supplied by Central 1 are relevant to the day-to-day activities of the Credit Union. Dividends on these shares are at the discretion of the Board of Directors of Central 1. The member credit unions were previously subject to additional capital calls at the discretion of the Board of Directors, but was amended at the May 5, 2022 Annual General Meeting, as follows:

- i) elimination of certain provisions providing for a mandatory capital call by way of required subscriptions for shares,
- ii) addition of provisions for a voluntary capital call by way of subscriptions for shares,
- iii) amendments providing for redemptions of Class E shares to occur over an extended period after a member leaves the membership of Central 1,
- iv) provisions permitting a member to transfer to a different class of membership, subject to certain terms and conditions, and
- v) elimination of further annual determinations of the Class A shares subscribed by Class A members (share rebalancing), effective following a voluntary capital call.

Class A Central 1 shares are subject to an annual rebalancing mechanism and are issued and redeemable at par value. There is no separately quoted market value for these shares; however, fair value is determined to be equivalent to the par value due to the fact that transactions occur at par value on a regular and recurring basis. The Credit Union is not intending to dispose of any shares as the services supplied by Central 1 are relevant to the day to day activities of the Credit Union. Dividends on these shares are at the discretion of the Board of Directors of Central 1.

Class E Central 1 shares are redeemable at \$100 per share. Due to the uncertainty of future redemptions of Class E shares, the Credit Union has deemed that cost is an appropriate proxy of fair value for this class of shares.

BC Cooperative Association and East Kootenay Columbia Investment Co-op are cooperatives. There is no separately quoted market value for these shares however, fair value is determined to be equivalent to the par value of the shares.

There is no separately quoted market value for the units of CU CUMIS Wealth LP. However fair value is determined to be equivalent to cost as upon redemption of the units the credit union would be entitled to its initial capital contribution and any unpaid accrued distributions (which will be a nominal amount).

The Credit Union holds 33.33% (2022 - 25.00%) of the voting shares of Kootenay Risk Services Ltd. and the investment is recorded using the equity method.

Summarized financial information for investments with significant influence has been excluded from the financial statements.

9. INVENTORY

Inventory is comprised of land for resale, plus related carrying costs. Inventory has been valued at the lower of cost and market value. Market value is determined by British Columbia Assessment Authority, comparative sales in the region (if any) and market conditions.

		2023	2022

<u>2022</u>				
Index-linked option contracts	\$ 217,439	\$	-	\$ 3,387,548

Equity options are transactions in which the Credit Union manages its exposure to changes in the value of index-linked deposit products. Equity options purchased by the Credit Union, for a premium, provide the right but not the obligation, to buy or sell to the writer of the option, an underlying stock index. These options contracts are transacted on an over-the-counter basis. The two parties exchange cash flows on a specified notional amount for a predetermined period based on the increase or decrease in an underlying stock market index versus a fixed interest rate. Notional amounts are not exchanged.

	\$ 594,819,985	\$ 407,836,539

Terms and conditions

Member loans can have either a variable or fixed rate of interest and they mature within seven years.

Variable rate loans are based on a "prime rate" formula, ranging from prime to prime plus 10.25%. The rate is determined by the type of security offered and the members' credit worthiness. The Credit Union's prime rate at December 31, 2023 was 7.75% (2022 - 7.00%).

The interest rate offered on fixed rate loans being advanced at December 31, 2023 ranges from 3.14% to 7.83%. The rate offered to a member varies with the type of security offered and the member's credit worthiness.

Residential mortgages are loans and lines of credit secured by residential property and are generally repayable monthly with blended payments of principal and interest only.

Personal loans consist of term loans and lines of credit that are non real estate secured and, as such, have various repayment terms. Some of the personal loans are secured by promissory notes and personal property or investments, and others are secured by promissory notes only.

Commercial loans consist of term loans, operating lines of credit and mortgages to individuals, partnerships and corporations, and have various repayment terms. They are secured by various types of collateral, including mortgages on real property, general security agreements, charges on specific equipment, investments and personal guarantees.

Average yields to maturity

Loans bear interest at both variable and fixed rates with the following average yields at:

	2023	2022
Variable rate	8.87	1.79
Fixed rate due less than one year	3.96	4.09
Fixed rate due between one and five years	4.34	3.80
		(continues)

Notes to Consolidated Financial Statements Year Ended December 31, 2023

11. MEMBERS' LOANS (continued)

Credit quality of loans

It is not practical to value all collateral as at the year end date due to the variety of assets and conditions. A breakdown of the security held on a portfolio basis on the principal amount of loans (before impairment) is as follows:

	 2023	2022
Unsecured loans	\$ 11,536,450	\$ 5,581,861
Loans secured by cash, member deposits, and government guarantees	26,865,323	17,805,460
Loans secured by other property	25,995,345	11,308,624
Real estate secured mortgages (non-insured)	434,460,663	300,874,590
Residential mortgages insured by government	 96,861,965	72,681,437
	595,719,746	408,251,972
Accrued interest on above amounts	 1,352,686	884,134
	\$ 597,072,432	\$ 409,136,106

For commercial loans, the credit union allocates a credit risk grade at initial recognition based on available information about the borrower. Under this system, the credit risk grades are defined as follows:

Notes to Consolidated Financial Statements Year Ended December 31, 2023

11. MEMBERS' LOANS (continued)

Risk		Description
Rating 1	Subsantantially Risk Free	Description Little or no risk evidenced. Sound financial position with liquidity and
1	Subsalitation Risk Free	strong equity base. The financial obligations are fully secured by
		undoubted liquid security for the term of the loan.
2	Minimal Risk	Superior credit quality. The capacity for the payment of financial
2	Willimat Kisk	obligations is considered high. Lowest risk evidenced by liquid security
		which provides dollar for dollar coverage.
3	Moderate Risk	Strong credit quality. The capacity for the payment of financial
3	Wioderate Kisk	obligations is substantial. Maybe vulnerable to future events, but qualify
		negative factors are considered to be manageable. Very low risk as
		evidenced by substantial security value.
4	Better Then Average Risk	Good credit quality. The capacity for the payment is considered
"	Better Then Average Risk	acceptable. May be vulnerable to future events. Loans which exceed all
		normal lending criteria for security value and carrying capacity by a
		reasonable margin.
5	Average Risk	Adequate credit quality. Non-investment grade. Vulnerable to future
	Tiverage Kisk	events. Loans which exceed all normal lending criteria for security
		value and carrying capacity by a reasonable margin.
6	Acceptable Risk	Lessor credit quality then BB. Vulnerable to future events. Loans which
	Tiesepaare Task	meet all normal lending criteria for security value and a carrying
		capacity, including loans where weakness in one lending criterion is
		offset by a strength in another criterion.
7	Cautionary (Watch List) Risk	Higher risk of defaulting on financial obligations than risk rating 6.
		Loans which meet all normal lending criteria for security value and
		carrying capacity, including loans where weakness in one lending
		criterion is offset by a strength in another criterion.
8	Substandard Risk	Financial obligations are seen as highly likely to default. A weekness
		has become apparent or an undesirable feature has arisen so that the
		loan would not be approved if submitted on its current merits. The loan
		is still collectible on the basis of security.
9	Unsatisfactory Risk	Inevitable default. Security value and repayment capacity are
		anticipated to support full recovery of outstanding principal; however,
		interest may not be.
10	Unacceptable Risk (Write off)	Inevitable default. Loan is no longer adequately supported by security
		value and repayment capacity. Specific provisioning required.

The Credit Union does not have any commercial loans that originate in a credit risk grade of 7 or lower. Commercial loans are subject to ongoing monitoring, which may result in the member loan being moved to a different credit risk grade.

The Credit Union monitors residential mortgages and personal loans primarily by delinquency status. The Credit Union also receives annual credit score reports (beacon scores) for purposes of determining whether there was a significant increase in credit risk during the year.

Notes to Consolidated Financial Statements Year Ended December 31, 2023

11. MEMBERS' LOANS (continued)

The following tables set out information about the credit quality of member loans based on the Credit Union's credit risk rating grade. Residential mortgages and personal loans are not rated, therefore, information has been presented based on their credit score grouping. Unless specifically indicated, the amounts in the table represent gross carrying amounts.

Residential mortgage and personal loans

		Lifetime ECL not	Lifetime ECL

Fair value

The fair value of member loans at December 31, 2023 was \$577,671,000 (2022 - \$397,688,000).

The estimated fair value of the variable rate loans is assumed to be equal to the book value as the interest rates on these loans re-priced to market on a periodic basis. The estimated fair value of fixed-rate loans is determined by discounting the expected future cash flows at current market rates for products with similar terms and credit risks.

Notes to Consolidated Financial Statements Year Ended December 31, 2023

11. MEMBERS' LOANS (continued)

Concentration of risk

The Credit Union has an exposure to groupings of individual loans which concentrate risk and create exposure to particular segments.

The majority of member loans are with members located in and around the East and West Kootenay regions of British Columbia.

Notes to Consolidated Financial Statements Year Ended December 31, 2023

12. ALLOWANCE FOR LOAN LOSSES

The Credit Union recognized allowance for loan losses for ECL on member loans, and measures allowance for loan losses at each reporting period according to a three-stage ECL model, as follows:

	1- No Significant Increase in Credit Risk Since Initial	2 Significant Inquage in Condit	
Stage	Risk Since Initial Recognition	2 - Significant Increase in Credit Risk Since Initial Recognition	3 - Credit-Impaired

Significant Increase to Risk Thresholds - Residential Mortgages and Personal Loans

In determining whether or not a significant increase to risk has occurred on a residential mortgages and personal loans, the Credit Union reviews on an annual basis the credit scores (Beacon Scores) of the borrowers associated with the loans. If the Beacon Scores associated with a specific credit facility breach a certain threshold relative to its original grouping at origination, the Credit Union has deemed there to be a significant increase in risk for that specific facility. The below tables identify the thresholds for each of the Beacon Score groupings that the Credit Union uses in determining whether a significant increase in credit risk exists.

Significant Increase to Risk Thresholds - Commercial Loans

In determining whether or not a significant increase to risk has occurred on commercial loans, the Credit Union reviews on an annual basis the internal risk ratings associated with the loans. If the internal risk rating associated with a specific credit facility breaches a certain threshold relative to its rating at origination, the Credit Union has deemed there to be a significant increase in risk for that specific facility. The below table identifies the thresholds for each of the internal risk ratings that the Credit Union uses in determining whether a significant increase in credit risk exists.

Notes to Consolidated Financial Statements Year Ended December 31, 2023

13. RIGHT-OF-USE ASSETS AND LEASE LIABILITY

The Credit Union has a lease for a building located in Elkford, BC. With the exception of short-term leases and leases of low-value underlying assets, the total lease asset is reflected on the statement of financial position as a right-of-use asset and a lease liability. Variable lease payments which do not depend on an index or a rate (such as lease payments based on a percentage of Credit Union revenue) are excluded from the initial measurement of the lease liability and asset. The Credit Union classifies its right-of-use assets in a consistent manner to its property and equipment (see *Note 14*). The Credit Union has applied IFRS 16 using the modified retrospective approach, but does not require restatement of prior periods.

The table below describes the nature of the Credit Union's leasing activities by type of right-of-use asset recognised on balance sheet:

					Number of	leases with	eases with			
	Number of	Range of	Average			Variable				
	right-of-	remaining	remaining			payments				
	use assets	term	lease term	Extension	Options to	linked to	Termination			
Right-of-use asset	leased	(months)	(months)	options	purchase	an index	options			
Elkford building	1	63	63	5 years	No	No	No			
Greenwood building	1	13	13	5 years	No	No	No			

Right-of-use assets

Additional information on the rightof-use assets by class of assets is as follows:

	 Asset	Caı	rying amount	Additions	 Amortization	 Impairmeı
Elkford building	\$ 348,251	\$	179,697	\$ -	\$ 168,554	\$
Greenwood building	40,605		20,594	-	20,011	
	\$ 388,856	\$	200,291	\$ -	\$ 188,565	\$

The right-of-use assets are included in a separate line on the statement of financial position.

Lease liabilities

Lease liabilities are presented in the statement of financial position as follows:

	Dece	December 31,		cember 31,
		2023		2022
Current	\$	54,496	\$	32,480
Non-current		160,035		191,715
	_ \$	214,531	\$	224,195

Notes to Consolidated Financial Statements Year Ended December 31, 2023

13. RIGHT-OF-USE ASSETS AND LEASE LIABILITY (continued)

The lease liabilities are secured by the related underlying assets. The undiscounted maturity analysis of lease liabilities is as follows:

	V	Vithin 1										
		year	1-	1-2 years		2-3 years		3-4 years		5 years	Total	
December 31, 2023												
Lease payments	\$	59,514	\$	60,109	\$	41,396	\$	39,690	\$	39,690	\$	240,399
Finance charges		(7,198)		(5,613)		(4,206)		(3,139)		(3,008)		(23,164)
Net present values	\$	52,316	\$	54,496	\$	37,190	\$	36,551	\$	36,682	\$	217,235
December 31, 2022												
Lease payments	\$	39,690	\$	39,690	\$	39,690	\$	39,690	\$	39,690	\$	198,450
Finance charges		(7,210)		(6,237)		(5,235)		(4,202)		(3,139)		(26,023)
Net present values	\$	32,480	\$	33,453	\$	34,455	\$	35,488	\$	36,551	\$	172,427

Lease payments not recognised as a liability

The Credit Union has elected not to recognise a lease liability for short term leases (leases of expected term of 12 months or less) or for leases of low value assets. Payments made under such leases are expensed on a straight-line basis. In addition, certain variable lease payments are not permitted to be recognised as lease liabilities and are expensed as incurred.

Sale and leaseback transactions

There have been no sale and leaseback transactions in the current year.

Notes to Consolidated Financial Statements Year Ended December 31, 2023

14. PROPERTY, PLANT AND EQUIPMENT

	Cost	 ccumulated mortization	ľ	2023 Net book value	2022 Net book value

	\$ 14,837,300	\$ 8,240,958	\$	6,596,342	\$ 5,398,599

As a result of appraisals prepared by Rocky Mountain Appraisal on January 19, 20 and 25, 2010 the carrying value of the lands owned by the Credit Union was increased to fair value as at January 1, 2010 in accordance with the provisions of IFRS 1 and IAS 16. At the time of conversion to IFRS, the Credit Union owned three parcels of land located in Cranbrook and Fernie BC, with a combined historical cost of \$363,376. The fair value of these lands, as determined from the appraisal prepared by Rocky Mountain Appraisal was written up to \$845,000. No impairment in the fair value has accrued in 2023.

The following assets included above are held under lease:

			Cost	 ccumulated nortization	2023 Net book value	2022 Net book value

					\$ 2,124,872	\$ 1,506,183

Notes to Consolidated Financial Statements Year Ended December 31, 2023

17. DEFERRED INCOME TAXES

Deferred income taxes are calculated on timing differences between amounts claimed as expenses or revenues on the financial statements and the corporation income tax return. Such differences may include claims for amortization of property, plant and equipment being different from rates of capital cost allowance allowed under the Income Tax Act and amounts that have been amortized over an expected useful life that are allowable for full write off in the year of acquisition under the Income Tax Act.

The adoption of IFRS allowed the Credit Union to increase the carrying value of its land and investment in East Kootenay Community Financial Services Ltd. to fair value. Those increases also gave rise to deferred income tax that was calculated on the income that would otherwise be taxable if those assets were sold at the fair value.

The deferred income taxes reflected on the Statement of Financial Position include both of the above components as follows:

Arising from timing differences, accounted for in operations Arising from fair values, accounted for in retained earnings and other comprehensive income

 2023	2022
\$ 144,092	\$ 139,790
(1,039,305)	302,920
\$ (895,213)	\$ 442,710

	Accrued interest payable	5,722,411	2,254,338
		\$ 654,675,723	\$ 445,398,803

Terms and conditions

Demand deposits are due on demand and bear interest at 0% to 0.75% at December 31, 2023. The interest rates on Member Advantage accounts range from 0.45% to 1.85%. Interest is paid on the accounts monthly.

Term deposits bear fixed rates of interest for terms of up to five years. Interest can be paid annually or upon maturity. The interest rates offered on term deposits issued on December 31, 2023 range from 2.00% to 5.60%.

The registered retirement savings plan (RRSP) accounts can be fixed or variable rate. The fixed rate RRSPs have terms and rates similar to the term deposit accounts described above and may also pay interest semi-annually. The variable rate RRSPs bear interest at rates up to 0.75% at December 31, 2023.

Registered retirement income funds (RRIFs) consist of both fixed and variable rate products with terms and conditions similar to those of the RRSPs described above. Members may make withdrawals from a RRIF account on a monthly, semiannual, or annual basis. The regular withdrawal amount vary according to individual needs and statutory requirements.

The tax-free savings accounts can be fixed or variable rate with terms and conditions similar to those of the term deposits described above. The interest rates on tax-free savings accounts issued on December 31, 2023 range from 2.00% to 4.90%.

Included in deposits is an amount of \$5,517,036 denominated in US dollars (2022 - \$2,333,897).

Fair value

The fair value of members deposits and shares at December 31, 2023 was \$653,214,000 (2022 - \$418,250,000).

Notes to Consolidated Financial Statements Year Ended December 31, 2023

18. MEMBERS' DEPOSITS (continued)

The estimated fair value of the demand deposits and variable rate deposits are assumed to be equal to book value as the interest rates on these loans and deposits re-price to market on a periodic basis. The estimated fair value of fixed rate deposits is determined by discounting the expected future cash flows of these deposits at current market rates for products with similar terms and credit risks.

Average yield to maturity

Members' deposits bear interest at both variable and fixed rates with an average yield of 1.99% at December 31, 2023.

Concentration of risk

The Credit Union has an exposure to groupings of individual deposits which concentrate risk and create exposure to particular segments.

A substantial amount of member deposits are with members located in and around the East and West Kootenay regions of British Columbia.

	\$ - \$	\$ 1,497,609	\$ 1,497,609 \$

Notes to Consolidated Financial Statements Year Ended December 31, 2023

20. MEMBERS' SHARES

At the Annual General Meeting held on April 13, 1991 the membership of the Steller Vista Credit Union authorized the establishment of four classes of shares:

"A" Equity Membership

"B" Non-Voting Equity Shares

"C" Voluntary Equity Shares

"D" Non Equity Shares

Rights and privileges attached to the various classes are set out in Credit Union Rules 2.1 to 2.16.

As at December 31, the three classes of shares consisted of the following issued and fully paid shares:

		2023	2022
"A" Equity Membership Shares "C" Voluntary Equity Shares	\$	2,322,733 1,748,588	\$ 2,001,508 821,810
	\$_	4,071,321	\$ 2,823,318

Investment shares are recognized as a liability, equity or compound instrument based on the terms and in accordance with IAS 32, Financial Instrument Presentation and IFRIC 2 Members' Shares in Co-operative Entities and Similar Instruments. If they are classified as equity, they are recognized at cost. If they are recognized as liability, they are initially recognized at fair value net of any transactions costs directly attributable to the issuance of the instrument and subsequently carried at amortized cost using the effective interest rate method.

Notes to Consolidated Financial Statements Year Ended December 31, 2023

20. MEMBERS' SHARES (continued)

Membership shares

As a condition of membership, which is required to use the services of the Credit Union, each member is required to hold \$5 in membership shares. These membership shares are redeemable at par only when a membership is withdrawn. Dividends are at the discretion of the Board of Directors.

Funds invested by members in "A", "B" and "C" shares are not insured by Credit Union Deposit Insurance Corporation of British Columbia. The withdrawal of member shares is subject to the Credit Union maintaining adequate regulatory capital (See Note 28), as is the payment of any dividends on these shares. Membership shares that are available for redemption are classified as equity.

Distributions to members

	 2023	2022
Patronage distributions Dividends	\$ 350,465 94,757	\$ 367,740 40,302
Subtotal Dividends on Non Equity Shares (included in Finance Expense)	 445,222	408,042 65
	\$ 445,222	\$ 408,107

21. CONTRIBUTED SURPLUS

Contributed surplus was created on the acquisition of the assets and liabilities of Heritage Credit Union (HCU) on January 1, 2023. On a consolidated basis, the balance of \$19,572,044 (2022 - NIL) represents the retained earnings of HCU, adjusted for changes in fair value of land and buildings and deferred taxes on investments, member loans receivable, property and equipment, and member deposits held by HCU, as provided in Note 22.

Notes to Consolidated Financial Statements Year Ended December 31, 2023

22. BUSINESS COMBINATION

On January 1, 2023, the credit union completed an agreement to acquire the assets and assume the liabilities of Heritage Credit Union (HCU) under Subsection 88(1) of the Income Tax Act. The assets and liabilities were acquired at fair value. The acquisition was accounted for using the Acquisition Method in accordance with IFRS 3, with the results of operations included with StellerVista Credit Union, beginning January 1, 2023.

The financial instruments acquired are measured at fair value and gains and losses are recognised in other comprehensive income, and amortized over their remaining life, which is a maximum of 36 months from the date of acquisition, in accordance with *IFRS 9 (Financial Instruments)*.

Notes to Consolidated Financial Statements Year Ended December 31, 2023

23. ACCUMULATED OTHER COMPREHENSIVE INCOME

As described in *Note 5* the Credit Union invests in both Equity Instruments and Hedges (in the form of Interest Rate Swaps). IFRS requires the values of these investments to be reported at Fair Value, less the applicable amount of income tax that would be payable if the Fair Value was realized, which is recorded as Deferred Income Taxes. By their nature, the Fair Value of these investments fluctuates with market conditions. In addition, the method of reporting the Fair Value of the Hedges depends on whether the Hedge is considered to be effective or ineffective.

Adjustments to Comprehensive Income and Deferred Income Taxes arising from the treatment of both Equity Instruments and Hedges are set out below:

		2023		2022
Opening balance	\$	(569,676)	\$	(323,281)

Ename outline, accumulated other comprehensive meonic	Ψ	(2,11,2717)	Ψ	(307,070)

These changes are recorded in the Statement of Comprehensive Income and in the Deferred Income Tax account as at December 31, 2023 and the comparative figures for 2022.

Notes to Consolidated Financial Statements Year Ended December 31, 2023

24. INCOME TAXES

The Credit Union incurs tax at the general corporate rate of 27.0% for taxable income that exceeds the \$500,000 Business Limit. The Business Limit is reduced by a formula when the Taxable Capital of the associated companies exceeds \$10,000,000 in the previous year, and is completely eliminated when the Taxable Capital of the associated companies exceeds \$50,000,000 (2022 - \$15,000,000).

The Taxable Capital of the associated companies at December 31, 2023 was \$45,030,952 (2022 - \$32,508,917).

British Columbia has a preferred tax rate available for credit unions that meet certain criteria, which can reduce the British Columbia portion of the tax by up to 10%.

25. SECURITIZATIONS

The Credit Union periodically enters into agreements with third parties for securitization of residential mortgages. The Credit Union determines whether the transfers of financial assets should result in all or a portion of the transferred mortgages being derecognized from its Statement of Financial Position in accordance with IFRS 9. Requirements for derecognition include an assessment of whether the Credit Union's rights to contractual cash flows have expired or transferred, or whether an obligation exists to pay the cash flows collected on the underlying asset. The derecognition standards also include an assessment of whether substantially all of the risks and rewards of ownership have transferred.

Notes to Consolidated Financial Statements Year Ended December 31, 2023

25. SECURITIZATIONS (continued)

NHA MBS Securitizations

In September 2014, the Credit Union became an approved issuer of mortgage-backed securities as defined under the National Housing Act ("NHA"), whereby the Credit Union sells mortgages through the NHA mortgage-backed security program ("NHA MBS program"). The Credit Union has determined that transfers of mortgages through the NHA MBS program do not meet the derecognition requirements outlined under IFRS 9 and therefore the mortgages are retained on the Statement of Financial Position and a corresponding liability is also reported on the Statement of Financial Position. The Credit Union has elected, as its accounting policy, to determine the business model based on the accounting result of the securitizations through the NHA MBS program. As such, the held-to-collect business model is considered to be met for NHA MBS securitizations and the Credit Union accounts for the securitized mortgages at amortized cost. The balance outstanding of mortgages transferred through the NHA MBS program as at December 31, 2023 was \$4,213,932 (2022 - \$8,667,581), with a corresponding liability of \$NIL (2022 - \$3,387,341), as identified in Note 19.

During the year the Credit Union did not securitize any additional mortgages through the NHA MBS program. There were no discounts or premiums in 2023. The Credit Union initially recognizes discounts on securitizations as prepaid expenses and amortizes the discounts over the maximum contractual life of the securitized mortgage pool.

Other securitizations with Salmon Arm Savings Credit Union

In November 2013, the Credit Union entered into a transfer arrangement with Salmon Arm Savings Credit Union ("SASCU") that also did not meet the derecognition requirements of IFRS 9. The Credit Union has elected, as its accounting policy, to determine the business model based on the cash flow result of the securitizations through the NHA MBS program. As such, the held-to-collect business model is not considered to be met for this portfolio and the Credit Union accounts for the securitized mortgages at fair value. As the provisions of the transfer arrangement provide that under certain circumstances the Credit Union will be required to repurchase the mortgages utilizing the same pricing model under the original transfer agreement, the corresponding liability is also adjusted to fair market value. As at December 31, 2023, the balance of mortgages transferred to SASCU totaled \$1,492,596 (2022 - \$1,979,788) (fair market value) with a corresponding liability of \$1,492,596 (2022 - \$1,979,788) (fair market value).

Notes to Consolidated Financial Statements Year Ended December 31, 2023

25. SECURITIZATIONS (continued)

	2023	2022
Residential mortgages transferred but not derecognized Carrying value of securitized residential mortgages Securitized mortgages liquidated prior to year end for which	\$ 5,765,678	\$ 11,101,786
liability exists Unamortized discount on transfer of securitized mortgages Increase (decrease) to reflect fair value of securitized	14,131	41,612
residential mortgages	 (59,149)	(99,542)
	 5,720,660	11,043,856

(Note 19)	 1,492,597	6,215,302
	 1,492,597	6,215,302
Net asset (liability) of securitized residential mortgages	\$ 4,228,063	\$ 4,828,554

The securitized mortgages mature as follows:

Securitized Mortgage Pool	Maturity Dates
NHA MBS #2	Between April 2022 and August 2022
NHA MBS #3	Between December 2023 and May 2023
NHA MBS #4	Between August 2022 and November 2022
NHA MBS #5	Between June 2023 and September 2023
Salmon Arm Savings Credit Union	Between March 2021 and December 2025

The Credit Union also enters into agreements to sell mortgage pools. Unlike the mortgage securitizations, the Credit Union does not retain any financial interest in these sold mortgages and substantially all of the risks and rewards are transferred. As part of the agreements, the Credit Union continues to act as administrative agent on these mortgages.

During the year the Credit Union did not sell any mortgages (2022 - NIL).

Notes to Consolidated Financial Statements Year Ended December 31, 2023

26. RELATED PARTY TRANSACTIONS

The Credit Union entered into the following transactions with key management personnel, which are defined by IAS 24, Related Party Disclosures, as those persons having authority and responsibility for planning, directing and controlling the activities of the Credit Union, including directors and management and any entities controlled or jointly controlled by directors and management.

	 2023	2022
Compensation Salaries and other short-term benefits Total pension and other post-employment benefits	\$ 1,345,205 165,267	\$ 1,163,920 139,036
	\$ 1,510,472	\$ 1,302,956
Loans to key management personnel Aggregate value of loans advanced Total value of lines of credit advanced Unused value of lines of credit	\$ 1,400,991 34,556 271,700 1,707,247	\$ 1,282,347 464,441 379,300 2,126,088
Interest received on loans advanced	\$ 7,839	\$ 23,885
Deposits from key management personnel	\$ 966,529	\$ 830,213

Loans to key management personnel

The Credit Union's policy for lending to key management personnel is that the loans are approved and deposits accepted on the same terms and conditions which apply to Members for each class of loan or deposit; however, as part of its remuneration and benefit package the Credit Union offers all staff members a reduction from current interest rates subject to specific maximum amounts as approved by the Board of Directors.

Deposits from key management personnel

The Credit Union's policy for receiving deposits from key management personnel is that all transactions are approved and deposits accepted on the same terms and conditions which apply to Members for each type of deposit. There are no benefits or concessional terms and conditions applicable to key management personnel or close family members.

An analysis of instruments that are measured subsequent to initial recognition at fair value, grouped into levels 1 to 3 based on the degree to which the fair value is observable:

- Level 1 fair value measurements are those derived from quoted prices (unadjusted) in active markets for identical assets or liabilities using the last bid price;
- Level 2 fair value measurements are those derived from inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices); and
- Level 3 fair value measurements are those derived from valuation techniques that include inputs for the asset or liability that are not based on observable market data (unobservable inputs).

The level in the fair value hierarchy within which the financial asset or financial liability is categorized is determined on the basis of the lowest level of input that is significant to the fair value measurement. Financial assets and financial liabilities are classified in their entirety into only one of three levels.

All of the investments are classified under level 2. See *Note 8* for investments.

There were no transfers between level 1 and level 2 for the years ended December 31, 2023 and 2022.

Notes to Consolidated Financial Statements Year Ended December 31, 2023

28. FINANCIAL INSTRUMENT RISK MANAGEMENT

General objectives, policies and processes

The Board of Directors has overall responsibility for determination of the Credit Union's risk management objectives and policies and, while retaining ultimate responsibility for them, it has delegated the authority for designing the operating processes that ensure effective implementation of the objectives and policies to the Credit Union's finance function. The Board of Directors receives quarterly reports from the Credit Union's Chief Financial Officer through which it reviews the effectiveness of the processes put in place and the appropriateness of the objectives and policies it sets.

Credit risk

Credit risk is the risk of financial loss to the Credit Union if a counterparty to a financial instrument fails to make payments of interest and principal when due. The Credit Union is exposed to credit risk from claims against a debtor or indirectly from claims against a guarantor or credit obligations.

Risk measurement

Credit risk rating systems are designed to assess and quantify the risk inherent in credit activities in an accurate and consistent manner. To assess credit risk, the Credit Union takes into consideration the member's character, ability to pay, and value of collateral available to secure the loan.

The Credit Union's credit risk management principles are guided by its overall risk management principles. The Board of Directors ensures that management has a framework, and policies, processes and procedures in place to manage credit risks and that the overall credit risk policies are complied with at the business and transaction level.

The Credit Union's credit risk policies set out the minimum requirements for management of credit risk in a variety of transactional and portfolio management contexts. Its credit risk policies comprise the following:

- General loan policy statements including approval of lending policies, eligibility for loans, exceptions to policy, policy violations, liquidity, and loan administration;
- Loan lending limits include Board of Directors limits, schedule of assigned limits and exemptions from aggregate indebtedness;
- Loan collateral security classifications which set loan classifications, advance ratios and amortization periods;
- Procedures outlining loan overdrafts, release or substitution of collateral, temporary suspension of payments and loan renegotiations;
- Loan delinquency controls regarding procedures followed for loans in arrears; and
- Audit procedures and processes are in existence for the Credit Union's lending activities.

With respect to credit risk, the Board of Directors receives monthly reports summarizing new loans, delinquent loans and overdraft utilization. The Board of Directors also receives an analysis of bad debts and allowance for doubtful loans quarterly.

A sizeable portfolio of the loan book is secured by residential property in and around Cranbrook, British Columbia. Therefore, the Credit Union is exposed to the risks in reduction of the loan to valuation ratio (LVR) cover should the property market be subject to a decline. The risk of (losses) from loans undertaken is primarily reduced by the nature and quality of the security taken.

Notes to Consolidated Financial Statements Year Ended December 31, 2023

28. FINANCIAL INSTRUMENT RISK MANAGEMENT (continued)

There have been no significant changes from the previous year in the exposure to risk or policies, procedures and methods used to measure the risk.

Liquidity risk

Liquidity risk is the risk that the Credit Union will not be able to meet all cash outflow obligations as they come due. The Credit Union mitigates this risk by monitoring cash activities and expected outflows so as to meet all cash outflow obligations as they fall due.

Risk measurement

The assessment of the Credit Union's liquidity position reflects management's estimates, assumptions and judgments pertaining to current and prospective firm specific market conditions and the related behaviour of its members and counterparties.

Objectives, policies and procedures

The Credit Union's liquidity management framework is designed to ensure that adequate sources of reliable and cost effective cash or its equivalents are continually available to satisfy its current and prospective financial commitments under normal and contemplated stress conditions.

Provisions of the Credit Union Act require the Credit Union to maintain a prudent amount of liquid assets in order to meet member withdrawals. The Credit Union has set a minimum liquidity ratio:

Total liquidity 11.0% Liquidity Adequacy Ratio 8.5% Core liquidity 6.0%

The Credit Union manages liquidity risk by:

- Continuously monitoring actual daily cash flows and longer term forecasted cash flows;
- Monitoring the maturity profiles of financial assets and liabilities;
- Maintaining adequate reserves, liquidity support facilities and reserve borrowing facilities; and
- Monitoring and stress testing the Liquidity Adequacy Ratio daily.

The Board of Directors receives monthly liquidity reports as well as information regarding cash balances in order for it to monitor the Credit Union's liquidity framework. The Credit Union was in compliance with the liquidity requirements throughout the fiscal year.

The Credit Union is required to measure its capital adequacy based on the BC Financial Services Authority ("BCFSA") regulations. Based on the credit risk of each type of asset, the book value of each asset is multiplied by a risk weighting factor. The regulatory ratio is computed and must meet a minimum capital to risk-weighted ratio of 8%. The Credit Union manages its capital based on the statutory requirements applied to its assets on a monthly basis and reported to the Board. There have been no significant changes from the previous year in the exposure to risk, or policies, procedures and the methods used to measure the risk and/or capital adequacy.

Notes to Consolidated Financial Statements Year Ended December 31, 2023

28. FINANCIAL INSTRUMENT RISK MANAGEMENT (continued)

As at the year end date, the position of the Credit Union is as follows:

		<u>2023</u>	<u>2022</u>
•	Risk weighted assets	\$287,567,511	\$216,232,563
•	Capital adequacy ratio	16.79%	15.13%
•	Risk weighted asset ratio	41.24	44.78

There have been no significant changes from the previous year in the exposure to risk or policies, procedures and methods used to measure the risk.

Market risk

Market risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate as a result of market factors. Market factors include three types of risk: interest rate risk, currency risk, and equity risk.

Interest rate risk

Interest rate risk is the potential for financial loss caused by fluctuations in fair value or future cash flows of financial instruments because of changes in market interest rates. The Credit Union is exposed to this risk through traditional banking activities, such as deposit taking and lending.

The Credit Union's goal is to manage the interest rate risk of the statement of financial position to a target level. The Credit Union continually monitors the effectiveness of its interest rate mitigation activities.

Risk measurement

The Credit Union's position is measured monthly. Measurement of risk is based on rates charged to clients as well as funds transfer price rates.

Objectives, policies and procedures

The Credit Union's major source of income is financial margin, the difference between interest earned on investments and members loans and interest paid on member deposits. The objective of asset / liability management is to match interest sensitive assets with interest sensitive liabilities as to amount and as to term to their interest rate repricing dates, thus minimizing fluctuations of income during periods of changing interest rates.

Schedules of matching and interest rate vulnerability are regularly prepared and monitored by Credit Union management and reported to the regulatory bodies in accordance with the Credit Union's policy. This policy has been approved by the Board of Directors and filed with the Deposit Insurance Corporation of British Columbia as required by Credit Union regulations. For the year-ended 2023, the Credit Union was in compliance with this policy.

The following schedule shows the Credit Union's sensitivity to interest changes. Amounts with floating rates or due or payable on demand are classified as maturing within three months, regardless of maturity. A significant amount of loans and deposits can be settled before maturity on payment of a penalty, but no adjustment has been made for repayments that may occur prior to maturity. Amounts that are not interest sensitive have been grouped together, regardless of maturity.

Notes to Consolidated Financial Statements Year Ended December 31, 2023

28. FINANCIAL INSTRUMENT RISK MANAGEMENT (continued)

		Yield	Cost	Asset / Liability
Maturity dates	Assets	(%) Liabilities	(%)	Gap
Interest sensitive				
0 - 3 months	\$ 110,689,183	7.35 \$ 143,152,507	2.65	\$ (32,463,324)
4 - 12 months	100,048,585	4.74 175,707,214	4.99	\$ (75,658,629)
1 - 2 years	125,014,527	3.79 27,069,977	4.61	\$ 97,944,550
2 - 7 years	355,245,907	4.72 30,489,599	4.42	\$ 324,756,308
	\$ 690,998,202	\$ 376,419,297	<u>-</u>	\$ 314,578,905

Interest sensitive assets and liabilities cannot normally be perfectly matched by amount and term to maturity. The credit union utilizes interest rate swaps to assist in managing this rate gap. One of the roles of the Credit Union is to intermediate between the expectations of borrowers and depositors.

An analysis of the Credit Union's risk due to changes in interest rates determined that an increase in interest rate of 1% could result in an increase to net interest income of \$554,000 (2022 - increase of \$54,000) while a decrease in interest rates of 1% could result in a decrease to net interest income of \$339,000 (2022 - decrease of \$77,000).

There have been no significant changes from the previous year in the exposure to risk or policies, procedures and methods used to measure the risk.

Currency risk

Currency risk relates to the Credit Union operating in different currencies and converting non Canadian earnings at different points in time at different foreign exchange levels when adverse changes in foreign currency exchange rates occur.

The Credit Union's foreign exchange risk is related to United States dollar deposits and loans denominated in United States dollars. Foreign currency changes are monitored by the Credit Union for effectiveness of its foreign exchange mitigation activities and holdings are adjusted from time to time.

Risk measurement

The Credit Union's position is measured weekly. Measurement of risk is based on rates charged to clients as well as currency purchase costs. There have been no significant changes from the previous year in the exposure to risk or policies, procedures and methods used to measure the risk.

Notes to Consolidated Financial Statements Year Ended December 31, 2023

29. COMMITMENTS

Credit Facilities

The Credit Union has available to it, through Central 1 Credit Union, a total credit facility of \$28,050,000, comprised of a clearing facility of \$4,950,000 (\$CDN 4,500,000 and \$USD 450,000), a core facility of \$16,500,000 (limited to 3% of assets), an additional line of credit of \$6,500,000, and capital markets facility of \$100,000, bearing interest at 20 basis points over the Overnight Index Swap Rate for 7 day loans or 50 basis points over the CDOR for loans between one months and three months per annum secured by a commercial security agreement. At year-end, the balance outstanding on the demand facility was NIL (2022 - NIL).

Member loans

The Credit Union has the following commitments to its members at the year-end date on account of loans, unused lines of credit and letters of credit:

		2023		2022
Consumer Unadvanced loans Unused lines of credit	\$	7,628,355 39,112,097	\$	3,267,220 29,024,525
	\$	46,740,452	\$	32,291,745
Commercial Unadvanced loans	G	2 415 206	\$	2 (72 (45
Unused lines of credit	\$	2,415,386 13,847,304	Ф	2,678,645 8,972,002
Letters of credit		1,845,065		1,300,667
Weighted letters of credit		360,157		253,890
	\$	18,467,912	\$	13,205,204

Contractual obligations

The Credit Union has an agreement with Fiserv Canada which provides the Credit Union with data processing services and access to various automated banking machines and electronic funds transfer at point of sale networks. The agreement automatically renews on an annual basis.

Capital expenditures

The Credit Union has no material commitments for capital expenditures.

- \$1,800,000 for a renovation in the Castlegar Branch
- \$150,000 for a conversion to a new accounting system

Notes to Consolidated Financial Statements Year Ended December 31, 2023

29. COMMITMENTS (continued)

Off balance sheet mortgages and loans under administration

Off balance sheet mortgages and loans under administration by the Credit Union are comprised of loans that have either been syndicated or sold in its capacity as an agent. Off balance sheet mortgages and loans are not included in the statement of financial position and have a value at year end as follows:

	 2023	2022
Sold mortgage (retail) Syndicated mortgages and loans (commercial)	\$ 2,169,474 2,111,355	\$ 3,205,078 2,171,780
	\$ 4,280,829	\$ 5,376,858

30. PENSION PLAN

StellerVista Credit Union is one of several employers participating in the 1.75% Defined Benefit Division of the BC Credit Union Employees' Pension Plan. The BC Credit Union employees' Pension Plan is a contributory, multiemployer, multidivisional registered pension plan governed by a Board of Trustees which is responsible for overseeing the management of the Plan, including the investment of the assets and administration of the benefits. Based on the fourth quarter's information for 2022, this Plan Division covers about 3,400 active members, 2,100 inactive members and approximately 1,600 retired plan members, with reported assets estimated at \$1.068 billion (as of November 2023).

Under IFRS, an employer is required to account for its participation in a multi-employer plan in respect of the proportionate share of assets, liabilities, and costs, in the same fashion as for any other defined benefit plan except in the circumstances where the information is not available to the employer, as follows:

- i) The entity does not have sufficient information to enable the employer to use defined benefit accounting
- ii) The Plan exposes the participating employers to actuarial risks associated with the current and former employees of the entities with the result that there is no consistent and reliable basis for allocating the obligation, plan assets and costs to the individual entities participating in the Plan.

At least once every three years, an actuarial valuation is performed to assess the financial position of the Plan and the adequacy of the funding levels. The most recent actuarial valuation of the 1.75% Division of the Plan was conducted as at December 31, 2021. This latest valuation indicated a going concern surplus of \$112.5M and a solvency deficiency of \$10.4M. The next formally scheduled actuarial valuation date will be performed no later than December 31, 2024.

Employer contributions to the Plan are established by the Trustees upon advice from the Plan's actuary. The employer contribution rate schedule as determined under the 2021 valuation will continue to remain the same in 2024 as it was in 2023.

StellerVista Credit Union paid \$498,867 (2022 - \$427,368) in employer contributions to the plan in fiscal year 2023.
